****Groomers**** Have been out and running. So far there has been no major problems, just a few electrical issues. Groomers are also waiting for some real snow to work with. With there being so little snow the groomers are kicking up some rocks and limbs, so be cautious.

The 1974 Bombardier Groomer with drag has been sold. Thank you for the sale Jeff!!

****Trails**** Trail trims are done for the season. If you see any limbs or rocks on the trails any removal will be appreciated. All of the signs are up, and trails are pretty well marked. Please stay on the trail, and between markers, they are there for a reason.

Please respect our landowner's properties as we appreciate them letting us use these trails.

Hawley Forest has had a lot of work done over the past few months and is being groomed by the clubs big LMC, you can check it out at the Hawley State Garage on 8A. Thank you Decoigne family for making that a sweet spot to ride again.
